\$101,000 IN CASH STOLEN. Package Taken From Pittsburg Offices

of the Adams Express. A package containing \$101,000 in cash was stolen Monday from the general offices of the Adams Express Company in Pittsburg. Edward George Cunliffe, money clerk of the company, and one of the trusted employes, is missing, and the police of every city in the country have been asked to arrest him on the charge of stealing the

money. The cash was delivered to the company late Monday afternoon. The package containing the money was made up of \$80,000 in \$100 bills, \$10,000 in \$50 bills and the renainder of the money was in \$5, \$10 and \$20

It was learned at Pittsburg last night that part of the money had been shipped by the Bank of Pittsburg, and the remainder by the Farmer's National Bank of Pittsburg. From the same source it was learned that the money was consigned to a bank in Cincinnati, but the name of the bank

cannot be ascertained.

Cunliffe, who received the money after banking hours Monday, left his office at the usual time, about 6 o'clock in the evening. When he reached home he said nothing to his wife, but went direct to his room, where he changed his clothes, puting on a new winter suit. He ate his supper, and then said that he was going out for the evening. He kissed his four children an affectionate good-bye and left the house. That was the

ast seen of him.

When he did not report for duty this morning nothing was thought of the mat-ter, but when his wife a few hours later called up the office of the company and asked if he was there the suspicion of the company was aroused.

A hurried examination was

books, and it was found that his accounts were \$5 short. It was fully an hour afterwere to short. It was fully an hour afterward that a telegram was received from Cincinnati announcing the fact that the package containing the money had not been received there, and asking why it had not been sent A further examination of Cunliffe's books was made, and it was found that the money which had been intrusted to his care had never been forwarded.

his care had never been forwarded.
Cunliffe, according to the neighbors, was a most devoted husband and father. He was absolutely free from bad habits of any kind, and all of his time, when not at his office, was devoted to his wife and children. While he was not a regular member of any church, he almost invariably attended some church every Sunday. He did not drink, and was never known to have gambled. His wife was so ill last night over the affair that she was in charge of friends. Cunliffe came to Pittsburg in March, 1904. from Hartford. Conn., where all of his relatives live, and where he was held in the greatest esteem. Prior to his connection with the Adams Express Company, he was employed by the American Express Com-

pany in Hartford for a number of years and came to Pittsburg with good recommendations from them DOUGHERTY NOW IN JAIL.

Defaulting Peoria Educator Surrendered to the Sheriff.

Newton C. Dougherty, formerly bank president and defaulting school superintendent, against whom ninety-seven indictments for forgery and embezzlement were returned at Peorla, Ill., Monday for a total of \$64,500, drove to the jail and surrendered himself to the sheriff. The state's attorney said that evidences of

guilt against Dougherty are now strong.

The bakers of Washington are much interested in the twelfth convention of the Bakery and Confectionery Workers' International Union, which will begin its sessions next week in New York city. A local baker informed a Star reporter last night that there has been a large increase in the membership of the organization since the last convention. A complete revision of the constitution is proposed, which will include an increase in the per capita tax and the creation of a strong defense fund.

F. H. Harzbecker, the international secretary, has sent out to the membership a list of subjects that are to be considered by the convention with a request that they be discussed at the meetings of the local unions, and instructions given the delegates. Among them are the following

First-The establishing of a system whereby a record of the entire membership, including their standing, initiations, transfers and withdrawals, such as is in vogue in a number of other international organizations. may be kept in our international office. Second-The formation of seven district organizations with a district constitution. Third-The formulation of plans for the

election of a representative international executive board. Fourth-The per capita tax and its disposal.

Fifth-The helpers' and apprentices' plan of organization. Sixth-Why shall a withdrawal card expire one year from date of issue? Seventh-Representation at the American Federation of Labor convention,

Washington workers are interested in the recent move made by the Chicago Federa-tion of Labor to establish a bank for members of trades unions.

The bank is to be capitalized at \$2,000,000. directors is to rest with labor unionists. A charter has already been secured and the plan is to sell the stock of the concern

to members of the unions at \$5 a share, so that the bank will be owned by a multitude Credentials have been received and dele-

gates seated in the Central Labor Union of Washington as follows: Amalgamated Carpenters (Pirst Branch)-W. A. Smith, G. A. Adams, Fred Hook, W. T. Phillips and Frederick Parks. Engineers' Local, No. 99-L. W. Locks, vice M. S. Godfrey. "Among the subjects to come up at the next meeting of Columbia Typographical

Union," says Charles S. Gunn in the Trades Unionist, "will be that of changing the rate of mileage allowed to delegates represent-ing Columbia Union at I. T. U. conventions. Viewed from a purely 'economical' stand-point, it would seem that the 10 cents per mile allowed would furnish to a delegate a considerable surplus above necessary expenses when the convention is held in a distant city; at the same time. It should be borne in mind the greater the distance the greater traveling expenses. Undoubtedly men will be found to represent Columbia Union when the financial consideration for so doing has been reduced to a pittance, but whether a great union like Columbia wishes to uphold its dignity on an empty pocketbook is another question. It will be up to the membership to decide, and will furnish one of those 'perplexing' questions for de-bate, and give 'hope and inspiration' to those who believe Columbia Union should cease to be a spendthrift."

The question of holding a convention this year having been decided by the Brotherod of Painters, Decorators and Paper hangers, the membership is now voting on the place. At the general assembly held in Detroit four years ago Memphis, Tenn., ing. A change is now desired, and a proposition was sent out for a referendum vote rescinding the action of the convention. Six cities have been nominated—Buffalo, cago, New York, Indianapolis, St. I. and Cleveland—and the membership wil cide on one of these. The result of the vot will not be known for about three weeks, which will be ample time, as the convention is scheduled to be held on December 4. It is expected to continue in session for at least three weeks, as there has been an accumulation of business since the previous convention that could not be satisfactorily

settled by the referendum system The annual convention of the Internationan Photo-Engravers' Union was held last week in Buffalo. Reports showed the organization has greatly increased in strength during the year. Officers were elected as follows: President, Louis Flader, Chicago; "vice presidents, H. J. Griffiths, San Fran-eisco; Augustus E. Blank, Buffalo, and E.

H. E. Gudbrandson, Cleveland.

Finnegan, Boston; secretary-treasurer,

Edward A. Moffatt of the Bricklayers and Masons' International Union, who recently went to Panama as a government welfare adviser, has returned and prepared a report of his observations. He says the work of sanitation has made fine progress in the past nine months, and that stories told of the prevalence of yellow fever and other diseases do not compare with the facts. The report in part follows: "We do not wish to be understood as painting a rosy picture of conditions on the isthmus. We have tried, in our own way, to answer those responsible for the many false impressions now existing. We desire to be equally well understood as wishing to warn against going there persons unaccustomed to roughing it. Even with the execution of the present plans of improvement, Panama will still be a trop-ical country, and will still be in the same latitude as Abyssinia. It is no place for the man who makes much of the conveni-ences and comforts of life in the modern city. Men who intend to go there should be men who have the ability to accommodate themselves to circumstances. We would especially advise to stay at home in the more southern parts of our own country. Above all, it is no place for the man who is fond of drink. Not that the

non-drinker is not liable to infection, but his chances for recovery are infinitely bet-"Hardly less care needs to be exercised in the matter of food. But little meat should be eaten—the kind now supplied is anything but tempting. Strange fruits should be avoided. Plenty of sleep should be had; the best sleep in the tropics is had before midnight. The night air is dangerous. If wet, one should change clothes at the earli-est possible moment. Woolen underwear est possible moment. Woolen underwear should be worn every day and a stomach band of the same material every night. It is the rainy season there now, and it will be until November; so a rubber coat or cravenette and an umbrella should be part of one's outfit. Boots or leggins are indispensible on account of the many ants and other crawling creatures. As all persons who are to remain upon the isthmus any length of time are vaccinated before disembarking, one or two vaccination shields should be provided, for the govern-ment does not at present furnish these.

"Lastly, no one should think of going to the isthmus without sufficient means for a return passage, and this money should be kept intact. The fare to New York is:

"As for employment, it is needless for us to say that there is room for any number of men of the many trades and occupations that will be required.

pations that will be required.

"The rate of pay for building mechanics on the Panama canal is as follows:

"Bricklayers, per month, \$150; carpenters, per hour, 56 cents; painters and other building tradesmen, per hour, 56 cents; general foremen, per month, \$150; ordinary foremen, per month, \$125; master mechanics, per month, \$175 to \$200.

"These employes are paid in United These employes are paid in States currency; natives are paid in silver. "Wages in some trades are lower; but

these lower wages are paid native mechan-tics, those who are not able to earn more. When not engaged by the month, mechan-ics in these trades invariably receive 56 cents per hour, and they may at any time apply for promotion to the monthly class of their respective trade, and thus obtain higher wages and the privileges granted to higher wages and the privileges granted to those of that higher class.

"Employes, whether paid monthly or by the hour, are paid from the time they embark aboard the steamer at New York. Free transportation is granted from port of departure, which includes meals on steamer; but transportation to place of
